Karabi, please note that last two digits of the subject case falls into Glenn's docket. Does this case or restricted claims belongs to class 313? Please reply to the original e-mail sender, Mr. Yenke.

Thanks,  
Ashok Patel

**Subject:** Search

Greetings,

I have an application PG PUB 20020158839 (US 09/936915) which is claiming the CRT structure and a method of manufacturing the structure. I was curious if this case might belong in your area. Also, if your area only does the manufacturing portion---if I restricted the claims would those manufacturing claims being examined in your area. And if you can provide any search areas I would appreciate it.

thanks for your time,  
Brian
